DETAILED ACTION

Applicant's response to the previous office action of October 10, 2001, amendment and remarks submitted March 11, 2002 (Paper No. 10) is acknowledged. Applicant's amendment has overcome the rejection under 35 USC 112, 103 and 101 in the previous office action.

Claims 8-15 and 47-49 are herein examined on the merits.

Double Patenting

Claims 8, 9, 18 and 47-49 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 8 and 21 of copending Application No. 09/288556. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 10-11, 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Klein et al. (USPN 5,807,861).

Klein et al. (USPN 5,807,861) teaches compounds of formula I (they encompass compounds claimed in claims 10 and 11 in the instant application), see in particular claim 1, col. 42 and 43.

Art Unit: 1617

It would have been obvious to one of ordinary skill in the art at the time the invention to employ any of the compounds disclosed in Klein et al. (USPN 5,807,861).

One of ordinary skill in the art would have been motivated to employ any of the compounds disclosed in Klein et al. (USPN 5,807,861) because they are all known compounds readily employed in pharmaceutical compositions.

Allowable Subject Matter

Claims 12-15 are allowed over the cited prior art references.
